ABSTRACT

This report contains selected information and statistical data about the Oklahoma City Public Schools for the 1982-1983 school year. Data are presented in tables, charts, and graphs. District level statistics include: (1) Equal Employment Opportunity Commission breakdown of district employees by job classification, sex, and race; (2) general fund expenditures; (3) externally funded grants; (4) end of first quarter membership, and percentages by grade and race; (5) special education enrollment; (6) health services contacts; and (7) California Achievement Test results by grade. School building data is given for each elementary school, fifth year center, middle school, high school, and special center. In addition to charts giving information about the physical plant are charts containing figures on first quarter student membership, percentages of students by race, ethnic group, and sex, and percentages of students in special programs at each school.
